

Couples Residential Workshops Cadaques, Spain

Personal development Workshop | Course leader Terry Cooper and Jenner Roth

This workshop offers a special opportunity to be in an intimate annual on-going couples' residential group, where couples can deepen and bring value to their relationship.

The workshop is limited to four couples and is held over four days.

As well as the group sessions, participants have time to explore the Cadaques area. Our venue is comfortable and homely, overlooks the sea and is within the borders of the Cap de Creus national park which offers incredibly beautiful scenery and walking trails. Cadaques is in northern Spain and is accessible through Barcelona, Girona and Perpignan airports.

How to enquire

For further information on this workshop, please contact Jenner or Terry through the website or the Spectrum office.
